Instructor Run-of-Show

75 minutes | Monday, October 12, 2026

LEARN > PRACTICE > OPERATE > QUALIFY. Preserve the 1,000-point structure. Continue the existing DAY 14 assignment (100 points, no due date, unlimited attempts).

Before students arrive

Open Monday lesson, the PowerPoint, live Alex site, Word and template. Prepare a reviewed KB draft/personal copy, projector and phone. Students sign into their own accounts privately. Never show credentials or edit shared originals.

00-05 | Field briefing

Slides 1-3. Evidence, ownership, canonical progression. Students identify one existing artifact. No new assessment, points or deadline.

05-15 | Live Alex tour

Slides 4-10. Homepage, validation, ticket, KB and full PDFs; briefly open remaining examples. Fictional model, not student work.

15-25 | Word authoring

Slides 11-16. Personal copy of existing draft; metadata, Heading styles, numbered procedure, expected/actual table, validation, escalation, proof/accessibility.

25-30 | PDF export

Slides 17-18. Word for the web Export or desktop Save As. Professional filename; open every page and sanitize.

30-37 | Template creation

Slides 19-21. Own account, exact USERNAME.github.io, Public. Reuse an existing site; no classroom fork.

37-43 | Personalize and commit

Slides 22-23. Truthful name, introduction and links. Meaningful commit to main; unfinished links hidden.

43-50 | Upload and link PDF

Slides 24-26. artifacts/ upload, commit; matching href, remove hidden, commit. Partner checks case/path.

50-58 | Publish Pages

Slides 27-29. Settings > Pages > branch > main > root > Save. Deployment success and automatic republishing. Use waiting time for PDF review.

58-65 | Qualification tests

Slides 30 and 32. Desktop, phone and signed-out PDF. Diagnose URL, filename, root index, pending build and uncommitted changes.

65-71 | Blackboard submission

Slide 31. Existing Day 14 only. Live URL, repo URL, PDF URL, validation/reflection; check confirmation.

71-75 | Close and next steps

Slides 33-34. Partner checklist, future CIT evidence. Optional independent completion on the same existing assignment.

If time runs short

Prioritize a safe PDF, personal repository, live site and one working artifact. Use the Quick-Start Guide for independent completion. Do not add a due date or duplicate assessment.

Instructor verification boundaries

Real screenshots show Word for the web, GitHub and Blackboard. The Pages capture is the classroom repo; students configure their own. Perform a real phone check in class; preparation did not provide a phone-sized viewport. Keep authoring .docx private and export reviewed PDFs.

Submission: existing DAY 14 assignment. SOTE showcase is voluntary and separately reviewed.
