Portfolio Completion Checklist

CIT-205 | LEARN > PRACTICE > OPERATE > QUALIFY

Name: _____ GitHub username: _____

Qualification aid for the existing DAY 14 assignment, not a new graded assessment.

[ ] Personal public USERNAME.github.io repository uses my exact username and preserves existing work.

[ ] Root index.html/style.css remain; name, introduction and profile links are truthful.

[ ] Editable Word source saved privately; headings, numbered procedure, results table and validation are clear.

[ ] Exported PDF opened: all pages, tables, page breaks and text are readable.

[ ] No credentials, private records, real sensitive tickets or confidential infrastructure in the PDF.

[ ] Reviewed PDF in artifacts/; href matches folder, spelling, capitalization and extension exactly.

[ ] Only completed artifact links visible; matching anchor’s hidden attribute removed.

[ ] Homepage, upload and link changes committed to main with meaningful messages.

[ ] Pages: Deploy from a branch, main, /(root); deployment successful.

[ ] Live github.io site and navigation work on desktop and a phone; real PDF opens signed out.

[ ] Submitted live URL + repository URL + direct PDF URL + brief validation/reflection to existing assignment.

[ ] Blackboard submission confirmation checked; future main commits automatically republish.
